SUMMARY

A **motivated and reliable Master's student** in **Software Engineering** at the **University of Hertfordshire**, with a strong foundation in **Full Stack Development**, including **frontend and backend technologies**. Experienced in **collaborative team environments**, delivering quality work under tight deadlines, and solving complex problems with **creative and efficient solutions**. Currently available for **40 hours per week until September 25th**, and then **20 hours per week** during term time. Actively seeking a **part-time or project-based contract** position where I can contribute my **technical expertise**, **adaptability**, and **strong work ethic** to innovative IT projects.

EXPERIENCE

Junior Developer • *Full-Time, Feb 2023 – Jan 2024*

METATEAM MYANMAR Co.,Ltd, *Yangon, Myanmar*

- ✓ Trained in Laravel, Ruby on Rails, and NestJS to align with company needs.
- ✓ Developed and maintained web applications using PHP, Laravel, JavaScript, and MySQL.
- ✓ Built interactive UI components using Alpine.js, Vue.js, and Tailwind CSS.
- ✓ Contributed to API development and integration with Ruby on Rails and NestJS.
- ✓ Assisted in mobile development with React Native.
- ✓ Debugged, optimized performance, and managed version control with Git.

- -

Junior Developer • *Internship, Oct 2022 – Jan 2023*

METATEAM MYANMAR Co.,Ltd, *Yangon, Myanmar*

- ✓ Led a team of three developers to build a PHP-based web application using Laravel and MySQL.
- ✓ Designed and implemented key features, optimized database performance, and integrated CRUD operations.
- ✓ Collaborated with the team to debug, test, and maintain code quality.
- ✓ Managed version control with Git and documented development processes.
